

Pigtail strain relief (Ø=0,9 mm) PSR-01

Pigtail strain relief (Ø=0,9 mm) is mounted at entrance to ZK-06 and it enables optimally tight fixation of maximum 12 pigtails.
Material: ABS plastic, black colour

Splice protection

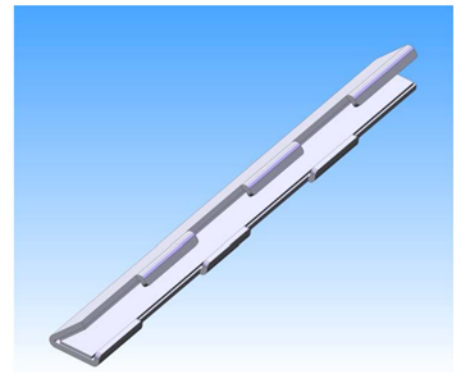

Splice protection is used to strengthen optical fiber without primary protection before and after the splice.

MCŠZ-T2

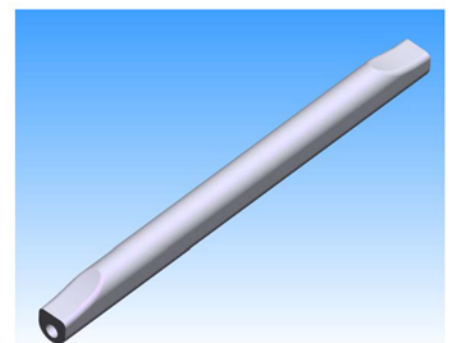

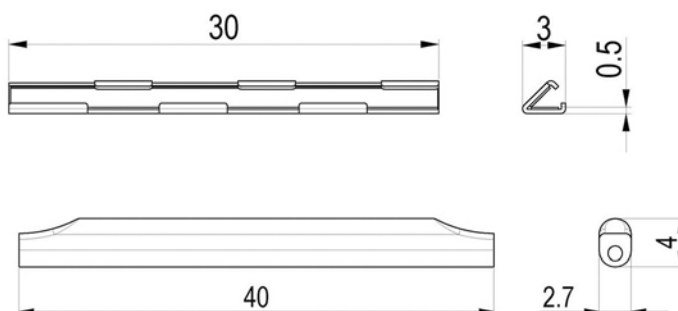

Type 1: Crimp block protection, length 40 mm

TKŠZ-T1

Type 2: Heat shrink splice protection, dimension after shrinking Ø=2,5x 41 mm
